HR Employee Analytics — Business Report

Enterprise Workforce Intelligence • 50,000 Employees • Prepared for HR Leadership

1. Executive Summary

This report analyses a workforce of **50,000** employees across 10 departments and 10 global office locations. **40,638** employees are currently active, with an overall attrition rate of **18.7%**. Average total compensation is **$186,311**, average experience **7.7 years**, average satisfaction **3.51/5**, and average performance rating **3.28/5**. Attrition is concentrated among lower-satisfaction, high-overtime and lower-band employees, and among long-tenured staff who have not been promoted. The recommendations in Section 8 target these drivers directly.

2. Workforce & Department Overview

Headcount and key metrics by department (largest functions first):

Department	Headcount	Attrition	Avg Comp	Avg Perf	Avg Sat
Engineering	10902	19.3%	$181,651	3.29	3.50
Data Science	3948	18.4%	$201,253	3.28	3.51
Sales	8013	17.6%	$222,355	3.28	3.53
Marketing	4500	18.3%	$159,214	3.28	3.53
Human Resources	3080	20.0%	$120,473	3.27	3.50
Finance	4109	17.6%	$208,289	3.28	3.51
Operations	5489	19.0%	$152,251	3.26	3.51
Customer Support	5014	20.8%	$119,373	3.26	3.50
Product	2979	17.2%	$330,490	3.28	3.49
Legal	1966	18.0%	$201,805	3.29	3.52

3. Attrition Analysis

The organisation-wide attrition rate is **18.7%**. Younger and early-career cohorts show the highest exit rates, and voluntary exits are dominated by opportunity- and compensation-related reasons.

Age Group	Exits	Attrition %
Under 25	789	19.5%
25-34	6376	18.8%
35-44	2051	18.2%
45-54	138	17.7%
55+	8	25.8%

Top exit reasons:

Exit Reason	Count
Manager Issues	1288
Work-Life Balance	1219
Career Growth	1215

Exit Reason	Count
Better Opportunity	1210
Compensation	1207
Higher Studies	1202

4. Compensation Analysis

Distribution across salary bands with average total compensation:

Salary Band	Employees	Avg Total Comp
Band 1 (<50K)	39	$47,217
Band 2 (50-80K)	2837	$70,673
Band 3 (80-120K)	10314	$101,007
Band 4 (120-180K)	16007	$148,301
Band 5 (180K+)	20803	$273,882

5. Performance Analysis

Performance rating distribution across the workforce:

Rating	Employees	% of Workforce
1 - Underperforming	2008	4.0%
2 - Needs Improvement	7098	14.2%
3 - Meets	20898	41.8%
4 - Exceeds	15016	30.0%
5 - Outstanding	4980	10.0%

6. Diversity Snapshot

Gender	Count	Share
Male	29239	58.5%
Female	20761	41.5%

Bachelor's is the modal education level; Master's holders command a clear compensation premium. Hybrid and remote modes together account for the majority of work arrangements.

7. Employee Engagement

Average satisfaction (3.51/5) and engagement sit in the mid-range. Customer Support and Operations trend lower on satisfaction and carry higher overtime, aligning with their higher attrition. Training investment and workload balance are the primary levers for improvement.

8. Strategic Recommendations (30)

1. Launch a targeted retention programme for Band 1–2 employees in high-attrition departments.
2. Cap sustained overtime above 20 hrs/month; rebalance workloads in Engineering, Operations and Support.
3. Introduce quarterly work-life-balance pulse checks and act on scores at or below 2.
4. Create a 'no-promotion 3+ years' watchlist and mandate development conversations.
5. Benchmark compensation against market for the lowest two salary bands.
6. Tie a portion of manager scorecards to team attrition and satisfaction.
7. Build structured career ladders to address 'Career Growth' exit reasons.
8. Deploy a first-90-day onboarding programme to reduce early-tenure attrition.

9. Offer stay-interview and counter-offer playbooks for at-risk high performers.
10. Expand mentoring for employees rated 2 to lift them to 'Meets' or above.
11. Review pay equity across gender within each job level and location.
12. Increase training-hour investment in departments with below-average engagement.
13. Formalise remote/hybrid policies where those modes already dominate.
14. Set department-level attrition targets and review monthly on the dashboard.
15. Reward top performers (rating 5) with accelerated promotion tracks.
16. Audit managers with disproportionately high team attrition.
17. Introduce recognition and awards programmes in low-satisfaction functions.
18. Model salary-band progression to give employees visible earning paths.
19. Prioritise retention spend where the exit reason is 'Compensation'.
20. Use exit-interview ratings to separate regretted from non-regretted attrition.
21. Establish a leadership pipeline from high-KPI, high-tenure employees.
22. Reduce sick-leave and low-attendance clusters via wellbeing initiatives.
23. Localise compensation strategy for premium markets (US/UK/Singapore).
24. Track promotion velocity (time-to-promotion) as a core HR KPI.
25. Create fast-track certifications to lift skills and engagement.
26. Set diversity hiring goals for departments with skewed gender ratios.
27. Introduce flexible-work incentives to compete on work-life balance.
28. Run predictive attrition scoring monthly using the Attrition Risk field.
29. Align bonus structures more tightly with KPI and goal completion.
30. Stand up a quarterly workforce-planning review using these dashboards.
